1. Identification

Product Name: DripMaster™ Fluid - Cherry Fragrance
Synonyms: None
CAS Number: None
Product Use: Deodorizer for Restrooms
Manufacturer: XPEDX
Address: 6285 Tri-Ridge Blvd.
Loveland, Ohio 45140
Transportation Emergency Number: CHEMTREC: 800-424-9300

2. Hazards Identification

GHS Classification:

<table>
<thead>
<tr>
<th>Health</th>
<th>Environmental</th>
<th>Physical</th>

GHS Label:

Symbols: None

Hazard Statements

CAUTION!
Combustible Liquid and Vapor
If inhaled: May cause respiratory tract irritation
For skin and eyes: Prolonged contact may lead to irritation
For allergic skin reaction: May cause allergic irritation
Harmful if Swallowed and in contact with skin
Does not cause Lung Cancer
Does not cause Birth Defects
Does not cause Genetic Defects
May cause damage to respiratory, nervous system, and liver through prolonged or repeated exposure

Precautionary Statements

Do not eat, drink, or use tobacco when using this product.
Restrict breathing of mist, or vapors
Keep container tightly closed
Keep away from heat and open flame
Wear protective gloves and eye/face protection
Use in a well ventilated area.
Store in tightly closed container in cool/well ventilated place.
Wash thoroughly after handling
exposure
Slightly Toxic to Aquatic Life

3. Composition / Information on Ingredients

4. First Aid Measures

**Eye**: Flush with water for at least 15 minutes or until irritation ceases. If irritation persists, consult a doctor.

**Skin**: Flush with water until slipperiness is gone. Prolonged contact by sensitive individuals can cause irritation or allergic dermatitis.

**Inhalation**: Immediately remove person to fresh air. Keep person calm, if not breathing, give artificial respiration. If not breathing, give oxygen.

**Ingestion**: Seek medical attention immediately. If person is conscious, give water to dilute stomach content and call a physician.

5. Fire Fighting Measures

**Suitable Extinguishing Media**: Water, Alcohol Foam, Carbon Dioxide, or Dry Chemical

**Fire Fighting Procedures**: Use normal firefighting equipment including a NIOSH approved self-contained breathing apparatus (SCBA). Use water to cool containers. Product may float on water if spilled

**Unusual Fire and Explosion Hazards**: Vapors may be heavier than air and travel along the ground to ignition sources or sumps.

**Combustion Products**: Carbon Monoxide, Carbon Dioxide and Oxides of Nitrogen

6: Accidental Release Measures

- Keep unnecessary personnel out of the spill and containment areas.
- Vapor Protective Clothing--not necessary. Vapors are not corrosive or dangerous.
- Do not flush to sewer or waterway
Personal Protection for Emergency Situations:

Evacuate the area of all unnecessary personnel.

Spill Mitigation Procedures

**Air Release:** Vapors may be suppressed by the use of water fog.

US regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of stipulated quantities (RQ). US Coast Guard National Response Center is 800-424-8802.

**Water Release:** This material is soluble in water. Contain all liquid for treatment and/or disposal as a (potential) hazardous waste. If not contaminated with other chemicals, this can be disposed of in a sanitary sewer.

**Land Release:** Create a dike or trench to contain materials. Absorb spill, or pump to liquid storage for disposal in a sanitary sewer or landfill. Decontaminate all clothing and the spill area using detergent and flush with large amounts of water; contain water for disposal in sanitary sewer.

Additional Spill Information:

Stop source of spill as soon as possible and notify appropriate personnel. Utilize emergency response personal protection equipment (PPE) prior to the start of any response. Evacuate all non-essential personnel. Dispose of spill residues per guidelines under Disposal Considerations.

7. Handling and Storage

**Handling:** Prevent spills by using containment dikes and plugging drains in a storage or dispensing area. Use chemical resistant gloves and eye protection to prevent exposure on handling. Do not take internally. Avoid contact with skin, eyes, and clothing. Avoid breathing vapor or mist. Electrically ground all equipment when handling this product.

**Storage:** Store product in original containers. Keep containers closed. Store in cool, well-ventilated areas. Keep away from oxidizers.

8. Exposure Controls / Personal Protection

Exposure limits:

- **Component 1:** Alkyl Dimethylbenzyl Ammonium Chloride none listed
- **Component 2:** Surfactant-Ethoxylated Propoxylated Alcohol none listed
Component 3: Non-Hazardous Essentials Oils and Fragrances 400 ppm

4. Water none listed

5. Citrus Terpenes 30 ppm

Engineering Controls: Local or mechanical ventilation recommended

Personal Protective Equipment (PPE):

Eye Protection: Chemical Splash Goggles or Face Shield

Skin Protection: Chemical gloves and apron. Nitrile Latex or neoprene recommended

Respiratory Protection: Use in well-ventilated area. Chemical cartridge respirators are not required except in enclosed spaces

9. Physical and Chemical Properties

Flashpoint: 180ºF  Autoignition Temperature: 400ºF
Boiling Point: 200ºF  Melting Point: 30ºF
Vapor Pressure: 20 mm Hg  Vapor Density: >1
% Solubility: 100%  Pour Point: 20ºF
Molecular Formula: Not applicable
Odor and Appearance: Colored viscous liquid with a Cherry and Vanilla Fragrance
Lower Explosive Limit (LEL): Unknown  Upper Explosive Limit (UEL): unknown
Specific Gravity: 1.02 g/ml  % Volatile 50%
Evaporation Rate: As water  Viscosity 100 cps
Octanol/Water Partition: Not applicable  pH 7.4
Molecular Weight: Not applicable

10. Stability and Reactivity

Hazardous Reactions: Strong Acids or oxidizing agents can cause separation of fragrant oils, and increase fire hazard.

11. Toxicological Information

Signs and Symptoms of overexposure:

Acute Effects: Shortness of breath or anaphylactic shock can occur with individuals who are sensitized or allergic to perfumes. Product can cause itching or burning to skin and eyes.
**Eye Contact:** Severe irritation, redness and swelling can occur with either contact with liquid or exposure to vapors exacerbated by allergic reactions.

**Skin Contact:** May cause reddening, or allergic skin irritation

**Inhalation:** May cause irritation and pulmonary edema

**Ingestion:** May cause gastro-intestinal discomfort.

**Target Organ Effects:** May cause gastro-intestinal discomfort, irritation to respiratory tract.

**Chronic Effects:** Allergic irritation due to sensitizing agents may result in individuals who are susceptible to allergic reactions and have chronically spilled material on hands or clothing.

**Medical Conditions Aggravated:** Individuals with damaged lungs from smoking or other health issues should not dispense (pour bottles) this product, due to possible pneumonia like reaction especially in closed spaces.

**Acute Toxicity:**

- Oral LD50 (rat) 2000mg/kg
- Dermal LD50(rabbit) >5000mg/kg
- Inhalation LC50(rat) 400 ppm
- IDLH 4 hour 8 hour

**12. Ecological Information**

LC$_{50}$ (Fathead Minnows) = unknown mg/L/96 hr.
EC$_{50}$ (Daphnia) = unknown mg/L/48 hr.

Bioaccumulation/Biodegradability : Bioaccumulation is not expected to be significant.
This product is readily Biodegradable.

**13. Disposal Considerations**

As sold, this product is not a hazardous waste and can be disposed of safely in any sewer or sanitary system. Flush down with plenty of water.

**COMPLY WITH FEDERAL, STATE, AND LOCAL REGULATIONS**

**14. Transport Information**

U.S. Department of Transportation (DOT)

**Proper Shipping Name:** Cleaning Compound Chemical Not DOT Regulated
Hazard Class: none
UN/NA Number: Not Applicable
Packing Group: Not Applicable
Labels Required: None

International Maritime Organization (IMDG)
Proper Shipping Name: Cleaning Compound Chemical Not DOT Regulated
Hazard Class: none
UN/NA Number: Not Applicable
Packing Group: Not Applicable
Labels Required: None

15. Regulatory Information

U.S. Federal Regulations
CERCLA: There is no designated reportable quantity (RQ) for this chemical. If appropriate, immediately report spills to the National Response Center (800/424-8802) as required by federal law. Also contact appropriate state and local regulatory agencies.
Toxic Substances Control Act (TSCA): All components of this product are included on the TSCA inventory
Clean Water Act (CWA): No known components in this product are hazardous substances under the Clean Water Act. Consult Federal, State and local regulations for specific requirements.
CAA (CAA): No known components in this product are hazardous substances under the Clean Air Act. Consult Federal, State and local regulations for specific requirements.
SARA
Immediate: No
Delayed: No
Fire: No
Pressure: No
Reactivity: No

State Regulations
California: NONE

International Regulations
Canadian Environmental Protection Act: NONE
Canadian Workplace Hazardous Materials Info Systems WHMIS
Class:  NONE

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations.

EU Classification of Existing Chemicals (EINECS):  All of the components of this product are included on EINECS.

EU Classification:  F Combustible  H None  T None  N Dangerous to the Environment

EU Risk R and Safety Phrases:

R36,38  Wear suitable clothing, gloves, and eye/face protection
R43  Skin Sensitizing Agent
R51,53  Toxic to the Environment
R24  Toxic in contact with skin
S24,25  Avoid contact with skin and eyes
S26  In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S36/37/39  Wear suitable clothing, gloves and eye/face protection

16. Other Information

National Fire Protection Association (NFPA) Ratings:  This information is intended solely for the use of individuals trained in the NFPA system.

Health: 1  
Flammability: 1  
Reactivity: 0  

Revision Indicator:  New SDS  Date 5/20/2013
